

ImmunoGen Announces Webcast of Presentation at Jefferies 2018 Global Healthcare Conference

May 30, 2018

WALTHAM, Mass.--(BUSINESS WIRE)--May 30, 2018-- [ImmunoGen, Inc.](http://www.immunogen.com) (Nasdaq: IMGN), a leader in the expanding field of antibody-drug conjugates (ADCs) for the treatment of cancer, today announced that the Company will present at the upcoming Jefferies 2018 Global Healthcare Conference. The presentation is scheduled for 1:30 p.m. ET on June 7, 2018.

A webcast of the presentation will be accessible live through the "Investors" section of the Company's website, www.immunogen.com; a replay will be available in the same location for approximately two weeks.

ABOUT IMMUNOGEN

ImmunoGen is developing the next generation of antibody-drug conjugates (ADCs) to improve outcomes for cancer patients. By generating targeted therapies with enhanced anti-tumor activity and favorable tolerability profiles, we aim to disrupt the progression of cancer and offer our patients more good days. We call this our commitment to "target a better now." Our lead product candidate, mirvetuximab soravtansine, is in Phase 3 study for folate receptor alpha (FR α)-positive platinum-resistant ovarian cancer, and in Phase 1b/2 testing in combination regimens. Our novel IGN candidates for hematologic malignancies, IMGN779 and IMGN632, are in Phase 1 studies.

Learn more about who we are, what we do, and how we do it at www.immunogen.com.
